Who can not understand the meaning of
 the following: "Missing from Killarney, Jane
 O'Fogarty. She had in her arms two sheep and
 a Guernsey cow, all black with red hair, and
 a tortoise shell comb behind her ears, and large
 spots all down her back, which grows awfully."

TO MISS CATHRINE J, OF U T K.

But friends & foes alike D K,
As we may plainly C

I trust that U R true,
When this U C, then U can say,

The Old Fellow in Sharon.

THERE was an old fellow in Sharon,
The top of whose head had no hair on,
So he made him a wig
From the skin of a pig,
The funny old chap out in Sharon.

A Twistable Twist.

WHEN a twister a-twisting
Would twist him a twist.
To twist him a twist
He three twists doth entwist.
But when one of the twists
That he twisteth untwists,
The twist that untwisteth
Untwisteth the twist.

Big Hole.

COL. GIBBON TO GOV. POTTS.

We've had a hard fight,
And I'm sorry to say
They've whipped us out quite
And the devil's to pay.
I wait at Big Hole
For answer from you,
And confess on my soul,
I don't know what to do.
gov. POTTS. TO COL. GIBBON.
Licked again? Your command
Nearly turned inside out?
Did Chief Joe take a hand,
Or was I toward about?
Your dispatch, trusty soul,
I answer this minute,
If you're near a big hole,
You'd better crawl in it.

It was a Chicago reporter who wrote, "They fired two shots at him; the first killed him, but the second was not fatal." A French writer, and not an Irish, made this bull: "In the death of Honoré Thiers, France is widowed of her noblest son." It was a French politician who said of his party, "that they were prepared to burn their ships, and with every sail unfurled steer boldly out into the ocean of freedom."

An American lecturer solemnly said, "Parents you may have children; if not, your daughters may not." It was a German Orator, who warning with his subjects, exclaimed, "There is no man, woman, or child in the house, has reached at the age of fifty years, but what felt this truth, thundering through their minds for centuries?"
